SUMMARY

Passionate Computer Science undergraduate with interests in Full-Stack Development, UI/UX Design, Software Testing, and Data-Driven System Development. Skilled in building modern web and mobile applications, designing user-friendly interfaces using Figma, and developing practical solutions for real-world problems. Dedicated to continuous learning, improving technical expertise, and creating efficient, user-centered digital solutions. Seeking opportunities to contribute to innovative software development projects, expand professional experience, and grow as a software engineer in a collaborative technology environment.

ACADEMIC QUALIFICATIONS

BSc (Hons) in Computer Science University of Plymouth (NSBM Green University)	Oct 2023 - Present
Diploma in English - Merit National Institute of business Management (NIBM)	Mar 2023 - July 2024
Certificate Course in Computer Science National Institute of business Management (NIBM)	Jan 2020 - Sep 2020
Advanced Certificate Course in English - Merit National Institute of business Management (NIBM)	Jan 2020 - Oct 2020
Certificate Course in Spoken English For Careers - Merit National Institute of business Management (NIBM)	Apr 2023 - Jul 2023

PROJECTS

Smart Vehicle Ownership & Maintenance Management System

Final Year Group Project | Full-Stack Developer

Stacks: React.js, Tailwind CSS, Node.js, Express.js, MySQL, REST APIs

- Developed a smart web-based vehicle ownership and maintenance management system for vehicle owners, garages, and administrators.
- Implemented features including vehicle registration, service booking, maintenance reminders, ownership transfer, and service history tracking.
- Designed responsive dashboards and integrated secure authentication, CRUD operations, and database management functionalities.
- Improved system usability through responsive UI design, API integration, testing, debugging, and workflow optimization.

Real-Time Air Quality Monitoring Dashboard for Colombo

Group Project | UI/UX Designer

Stacks: Figma, UI/UX Design, Dashboard Design

- Designed the complete UI/UX experience for a real-time air quality monitoring dashboard.
- Created responsive layouts, interactive dashboard interfaces, and user-friendly navigation systems.
- Applied modern UI/UX principles and data visualization concepts to improve usability and visual clarity.

Cash Pilot – Money Expense Tracking Mobile Application

Group Project | Software Testing & QA Team Member

Stacks: Mobile Application Testing, UAT, Test Case Design, Documentation

- Contributed to testing and quality assurance processes for a mobile expense tracking application.
- Designed and executed test cases to validate functionality, usability, and reliability.
- Identified bugs, UI inconsistencies, and functional issues while documenting testing results professionally.
- Collaborated with developers to improve software quality and user experience.

Portfolio Website Development & UI/UX Design

Personal Project | Front-End Developer & UI/UX Designer

Stacks: React.js, Tailwind CSS, JavaScript, Figma

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and technical experience.
- Implemented modern UI/UX designs, reusable components, animations, and interactive layouts.
- Focused on responsive design, professional branding, and user-centered development practices.

SKILLS & COMPETENCIES

Front-End Development

- React.js
- Tailwind CSS
- Responsive Web Design
- Component-Based Architecture
- UI Development
- Interactive Web Interfaces

Back-End Development

- Node.js
- Express.js
- RESTful APIs
- JWT Authentication
- CRUD Operations
- API Integration

Database Technologies

- MySQL
- MongoDB
- SQLite
- Database Design & Normalization
- Relational Database Management

UI/UX & Design Skills

- UI/UX Design Principles
- User-Centered Design
- Wireframing & Prototyping
- Responsive Design
- Dashboard Design
- Figma
- Canva

Tools & Platforms

- Git / GitHub
- VS Code
- Postman
- XAMPP
- MySQL Workbench
- Jupyter Notebook
- Google Colab

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication Skills
- Creativity
- Time Management
- Adaptability
- Continuous Learning
- Leadership & Coordination
